Product Specification Sheet

A.G.A. BioX

The control of algae and filamentous algae

AGA BioX is a natural straw extract for conditioning contained water.

AGA BioX

Typical applications

- A.G.A. BioX Aquatic algaecide conditions contained water i.e. ponds, lakes reservoirs.
- It is more effective than straw, it's economical, works faster and totally eliminates the high cost of transporting and handling barley straw.

Product materials

- Water Based Concentrate

Product data

- Aqueous barley straw extract as a source of Hydrogen peroxide.
- AGA BioX is regulated under the CONTROL OF PESTICIDES REGULATIONS 1986 (COPR) HSE 9405

Material storage

- This product will not deteriorate rapidly when stored under normal conditions however it should be used as soon as practicable following delivery.
- The treatment should be carried out through the algae season.
- We therefore recommended that the critical application of A.G.A. BioX is during the spring or early summer to prove most effective in the control of algae.

Supply details

- Unless otherwise stated, A.G.A. BioX is available in 25 litre plastic drums
- The company contracts solely upon its conditions of sale, copies of which are available on request
